Professional Summary

Passionate Junior Environment Artist from Boston Mass. with 4 years of game development experience. Proficient in industry-standard 3D workflows, with a track record of contributing to successful game projects.

Projects

Bio Calibr (Online Multiplayer FPS) - (Sept 2026 - present)

- Lead a team of 8+ artists, providing art quality and aesthetic vision to the team and ensuring high visual fidelity and optimization
- Design and customize a variety of 3D assets, models, textures, animations, and skeletal meshes, then build them within Unreal Engine

Game Jam - April 2026

- Lead a team of 12+ in artistic vision and style to keep consistency and quality assurance of all asset creation in Maya and Unreal Engine

Game Jam - January 2025

- As a 3D Artist, Contributed to a small team of 7+
- Modeling in Maya, texturing in Substance Painter, and placing props in Unreal Engine

3D Underwater Submarine Study Env. - February 2025

- Using maya, Unreal Engine, and Substance Painter, created an underwater environment to better understand rendering water

Architectural Competition. - June 2025

- Worked on a team of 6+ as the 3d artist, creating an Env for architectural visualization using maya and unreal engine

Work Experience

Freelance 3D Art - 2022 - 2026

- Maintain 100% client satisfaction by delivering consistent aesthetic and technical quality throughout the asset pipeline

Hemlock Ink (Screen Printer/Designer) - 2021 - 2024

- Designed and printed custom clothing for clients

Passion

Game Environment Design

Creating immersive and realistic game worlds is my core passion, driving all aspects of my career.
